

What impact is Kangen Water® having on Chiropractors and their Patients?

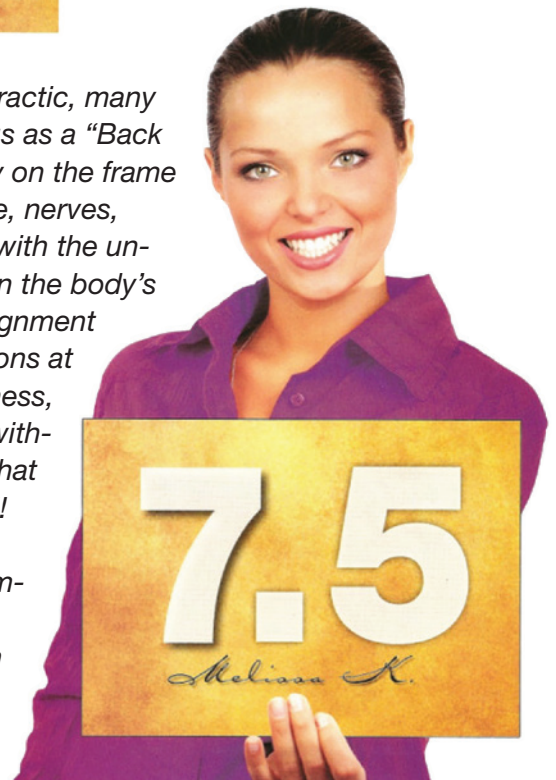

As Chiropractic Offices become more “Holistic,” Doctors are incorporating Kangen Water® into their practice!

SOME FACTS:

- Kangen Water® is making a big impact because it is no ordinary water! Kangen Water® is a **detoxifying, anti-oxidizing**, negatively charged water that is **highly alkaline and microclustered**. A perfect combination for your Chiropractic office.
- The reputation of the business **grows through word of mouth** from happy and healthy clients. Additionally, Doctors who follow the holistic trend benefit from **happy and healthy clients**.
- Happy clients want to purchase a machine after experiencing the affects from the water thus generating a **very nice residual income** on the side.
- **Enagic** is the only Company on the planet that manufactures water ionizers that are able to **produce alkaline water for high water volume** applications such as water stores, health clinics & restaurants.

As a doctor of chiropractic, many people only think of us as a “Back Doctor”, working only on the frame of the body (vertebrae, nerves, muscles, ligaments), with the understanding that when the body’s frame is in optimal alignment and balance, it functions at a higher level of wellness, heals quicker and is without symptoms. Well that is only half of our job!! As a chiropractor we are also a “body chemist” and the most miraculous laboratory in the world is the Human Body!

The holistic market is growing! Be a part of the growing trend!

For many reasons, the Chiropractic Community is turning more Holistic in nature. There will be more and more of a demand for holistic services.

Learn how you can profit from incorporating Kangen Water® into your practice today!
